

# Web Portal Basics

## Basic Public viewing screen

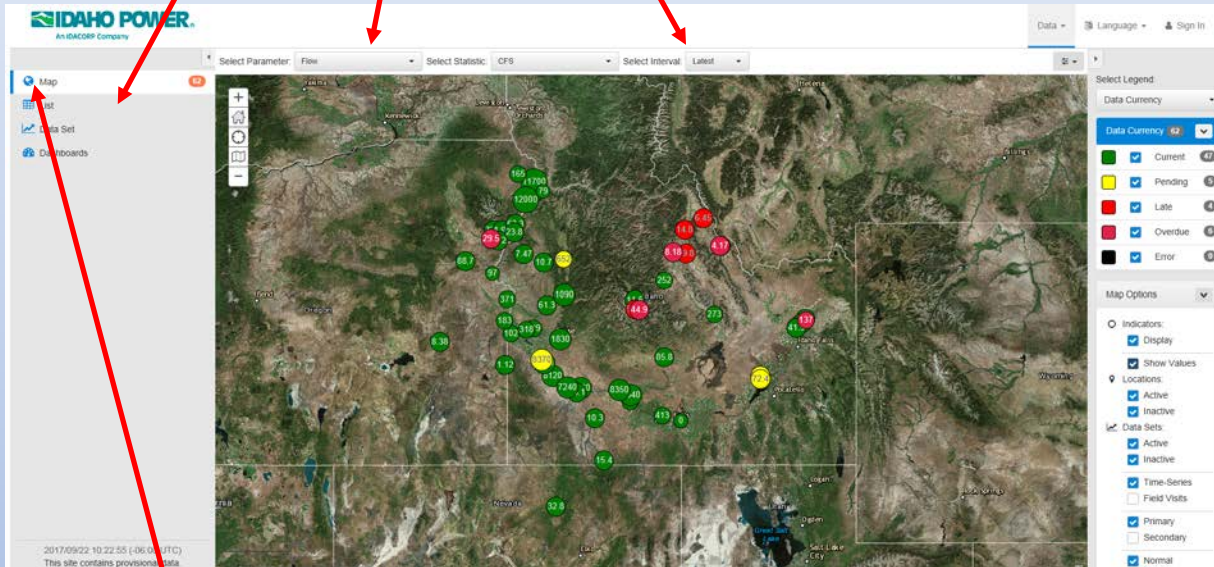

Click the Show Values button to see Flow Values

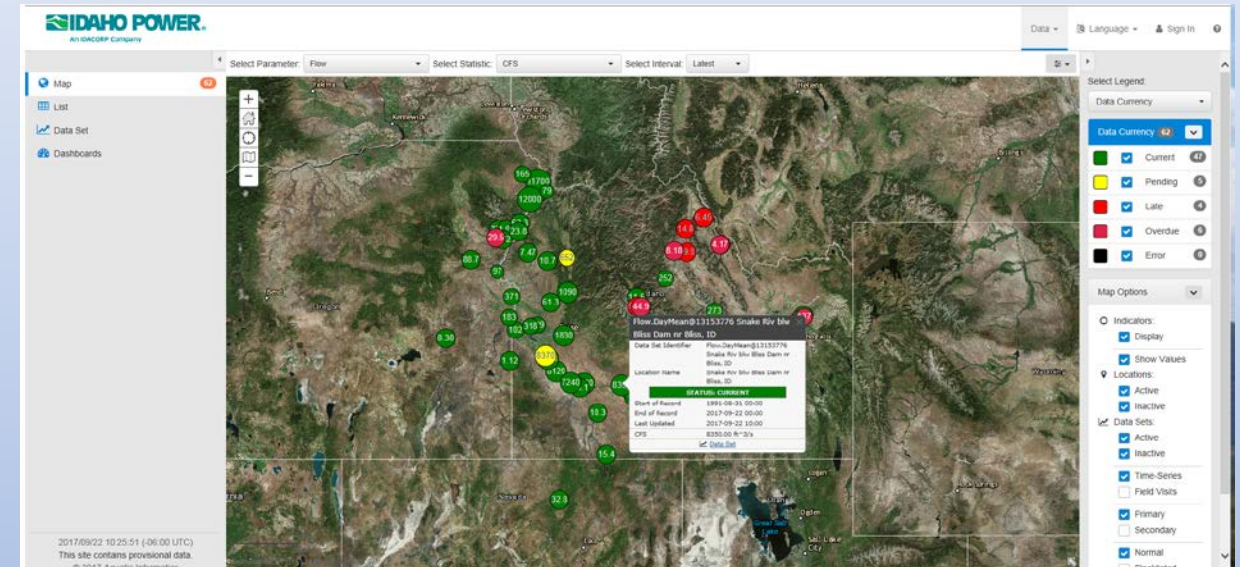

## Your base screen:

- Dots are color coded based on how old the data is, green is the most current
- The current parameter, defaults to Flow, is at above the map, to the left
- Time interval of data is at the top middle
- Viewing options are at the left

## Hovering over a “dot” will bring up basic information about the site

If you get away from this map and want back to it, click the Map button option at the top left

Clicking on a site will bring you to a graph of the current data

- Default is set to show last 7 days of data (if the site is not telemetered, it will show the most recent 7 days of data)
  - If you want to view a different time period, use the Select Interval drop down OR the time bar at the bottom
- Hovering over the chart and moving around will give you the exact value and time stamp in the white box

The Grid tab will show you a table of the data

This data can be sorted by clicking on the column names
